About Brainforest

Brainforest is globally the first venture studio that focuses on forests as a superior natural climate solution. By harnessing state of the art technology and the potential of forests, we deliver entrepreneurial solutions to the climate and biodiversity crisis in the form of independent impact ventures.

How do we achieve this? By understanding existing market barriers, identifying system changing opportunities, and empowering entrepreneurs to build game changing and profitable ventures. Through our seed funding and diverse team of visionary entrepreneurs, engineers and forestry experts, we are creating an ecosystem of solutions that significantly contributes to more forests, biodiversity, and a better climate.

Your Role

- Support the Brainforest leadership team in the daily management of a fast growing venture studio including finance, legal and administration - with the opportunity to grow into a deputy CFO / COO role.
- Assist the venture building team and the Entrepreneurs in Residence to develop impact and business models for the new ventures - with the opportunity to grow into a venture builder role.
- Further develop and manage Brainforest's talent acquisition tools and support the hiring processes - with the opportunity to grow into a talent management role.
- Support Brainforest's internal and external communication with focus on social media (currently LinkedIn) - with the opportunity to grow into an independent communication role.

- Support the preparation of meetings and business negotiations, participate in those and organize the follow-ups; grow into delivering periodic presentations to different internal and external stakeholder groups (e.g. investor committee, Brainforest team or board, foundations).

Your Profile

We are looking for driven, capable, and visionary talents who are keen to contribute to solving the biggest challenges of our time – the climate and biodiversity crisis. Hence, you should tick the majority of the following boxes:

- Recently completed a master's degree from an excellent university, ideally in business administration, finance, strategy and international management, marketing, entrepreneurship or equivalent.
- First work experience via internship and eager to contribute as a top performer from the very beginning.
- Ability to achieve goals collaboratively combined with high individual ambition and proactivity.
- Excellent analytical and problem-solving skills with high curiosity to learn.
- You comfortably and quickly bring ideas, research, conclusions and condensed understanding of a topic into written form to convey your findings and the inputs from others.
- Strong communication skills, written and verbal, in English; German is a plus. Able to formulate complex ideas clearly and bring your message to the point in person, online (different media channels) or in documents.
- You align with our values and working principles: [The Brainforest Way](#)
- A plus: Good understanding of any of the following areas: Natural Climate Solutions, Machine Learning, DLT/Web 3.0, Re/Afforestation, Carbon Projects or Markets, Biodiversity, Material Substitution (e.g. timber in construction industry), Agroforestry

Your Role

- Start your professional career in a mission-driven, dynamic, caring and inclusive work environment with real impact. Your work will make a difference in the world.
- Working with and learning from unicorn & serial entrepreneurs, experienced business angels, renowned experts and the chance to globally build your network.
- We hire to retire: Don't worry, we won't tie you down to the office desk. But we want you to know that we are willing to go a long way with you and support you in your personal development. You will have the opportunity to pursue a purpose driven, entrepreneurial career and change between the Brainforest Venture Studio and its ventures.
